## 1. INTRODUCTION

Between June 1 and 19 August 2018, our State of Kerala went through the worst ever floods in history since 1924. One sixth of the State's population — about 5.4 million of us, Keralites — were affected. The floods and the accompanying landslides were catastrophic in terms of loss of lives, livelihoods, property and infrastructure. Govt: of Kerala addressed the phenomena in a comprehensive and systematic way by formulating REBUILD KERALA DEVELOPMENT PROGRAMME, a Resilient Recovery Policy Framework and Action Plan for Shaping Kerala's Resilient, Risk-Informed Development and Recovery from 2018 Floods . The key sectors identified in the RKDP are:, Integrated Water Resource Management, Water Supply, Sanitation, Urban, Roads and Bridges, Transportation, Forestry, Agriculture, Animal Husbandry and Dairy Development, Fisheries, Livelihoods and Land.RURAL ROADS which are back bone to the rural economy were drastically affected by the flood and are given due consideration by Kerala Government. As a part of Rebuild Kerala Initiative, the Government constituted a Project Management Unit (PMU) under Local Self Government Department for the effective management of projects assigned to the department.

## 2. OVERVIEW OF STATUS OF WORKS – AS WISE

### 3. CONSOLIDATED AS WISE STATUS
